

Efficiency meets comfort – Welltherm infrared heaters with new **precon**<sup>®</sup> plug-in concept.

welltherm<sup>®</sup>  
España

Our Welltherm infrared heaters naturally meet all requirements of the latest version of the Ecodesign Directive (2024/1103). This means we not only guarantee maximum energy efficiency and sustainability, but also future-proof heating comfort – “Made in Germany.”

To combine this requirement with maximum installation convenience, we are now relying on our innovative precon plug-in concept. This intelligent system ensures that our heaters can only be operated in combination with a suitable control system – in line with eco-design requirements.

At the same time, precon offers a significantly simplified and time-saving installation process: plug in, connect, done. This means you benefit from quick, safe installation—and end customers benefit from an efficient heating system that is ready for immediate use.

Welltherm – Efficient. Comfortable. Future-proof.

precon<sup>®</sup>

Product information Control elements “DE series” with *precon*<sup>®</sup> plug-in system for compliance with Ecodesign Regulation 2024/1103.

Standard delivery condition:

Our infrared heating systems are supplied with our innovative precon plug-in system. (Pre-assembled 650 mm connection cable and mounted 3-pin GST15i3 plug)

Control elements “DE series”

Item No.: DE00000  
Premium wireless thermostat DE

Net price	Gross price
114,69 €	138,77 €

Item No.: DE00010  
surface-mounted receiver DE

Net price	Gross price
79,34 €	96,00 €

Item No.: DE00010-01  
Surface-mounted receiver DE assembled  
Output 1: 500 mm cable and GST15i3 socket installed  
Output 2: Open for direct connection

Net price	Gross price
110,50 €	133,71 €

Item No.: DE00010-11  
Surface-mounted receiver DE assembled  
Output 1: 500 mm cable and GST15i3 socket assembled  
Output 2: 1800 mm cable with molded Schuko plug assembled.

Net price	Gross price
120,60 €	145,93 €

Item No.: KA0006-GST  
500 mm long connection cable.  
Side 1: 3-pin GST15i3 socket.  
Side 2: stripped cable ends (for connection to the receiver)

Net price	Gross price
21,50 €	26,02 €

Item No.: KA0009-GST  
1800 mm long connection cable.  
Side 1: 3-pin GST15i3 socket  
Side 2: Molded Schuko plug

Net price	Gross price
25,70 €	31,10 €

Product information Control elements “SA series” with *precon*<sup>®</sup> plug-in system for compliance with Ecodesign Regulation 2024/1103.

Control elements “SA series”

Item No.: SA00050
